Telstar Regional High School Zodiac 1998

Bethel, Maine 04217

As you depart from Telstar Regional High School, you will undoubtedly receive countless offers of advice. In many instances, it will not be for many years that advice someone offers now will have any importance to you. It is usually as we become parents that many of the things we learned as students have a stronger meaning. Often I reflect upon the comments the commencement speaker at my high school graduation closed with. Hopefully, they will have some significance for you.

"You will work a long time. Choose employment you enjoy as opposed to that which pays the most. Be true to your faith, it will sustain you during the trying times you will face. Choose a mate wisely, it is the most important decision you will make."

My very best wishes to you in all that you attempt.

Kent E. Rosberg, Superintendent

You have just completed four years of preparation towards your life's goals. It is my hope that you do not look at graduation as the final achievement, but rather as the beginning of more to come. As always, some of the members of the graduating class have had to work harder than others to achieve their goals.

An inscription in Hopkins Memorial steps at Williams College, Williamstown, Massachusetts (author unknown), reads as follows:

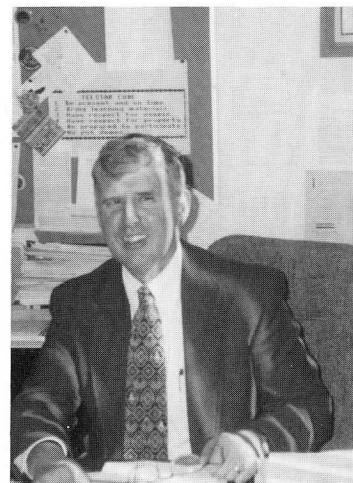

Climb high
Climb far
Your goal the sky
Your aim the stars

As you set and achieve future goals, may you also put your best efforts into them so that you will be proud and want to preserve them as you would a fortune. Let me leave you with this thought (author unknown):

"That which we acquire with the most difficulty we retain longest; as those who have earned a fortune are usually more careful of it than those who have inherited one."

My best wishes to you!

Theodore R. Davis
Principal

Congratulations to the Class of 1998. For the past four years you have worked and set goals to reach that magic day "graduation". Your diploma is only a symbol of your accomplishments here at Telstar, but it will open the door to the rest of your life.

Some of you will go on to college or trade school, others will join the armed services or the world of work. Whichever, route you choose, your attitude more than your ability will determine your success. Do your best, do what is right, and treat others in a positive manner. If you are committed to reaching your goals, you can have the kind of life you want. Be patient, be persistent, and take the basic tools you have been given through your Telstar education to expand your knowledge and abilities. In some way, small or large, do your best to make this changing world a better place.

Wishing you success in all your future endeavors.

Carroll Higgins
Assistant Principal
Athletic Director

Always Do Your Best

Find your strength. Search for that smile of yours that makes everything brighter. Hang in there, even though that can be easier said than done. Have faith.

Don't give up. Make a commitment . . . between your determination, your hopes, and your heart . . . that your sun is going to shine in the sky. Live your life a day at a time, and things will get better by and by.

Find your way through the days with the light that shines within you. Leave a smile where there wasn't one before. Help a hurt; make it mend. Find the strength to make things right again.

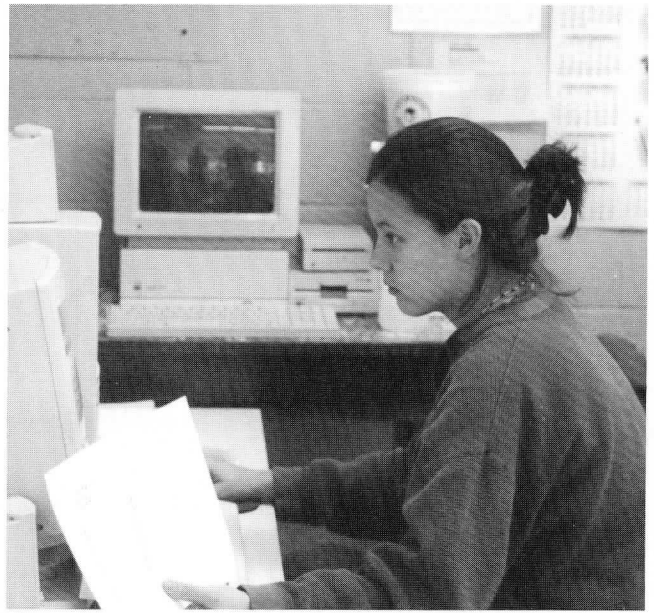

Go forward, from one steppingstone to another. Reach out a little farther. If you believe you can, then you will make it through. Listen a little more often to what your heart has to say. Do the things that are important to you.

Make today everything you dreamed it could be. Don't settle for less. Use the precious hours you've been given as wisely as you can. Always do your best.

DEDICATION

This year the class of 1998 is proud to dedicate their yearbook to Mr. Tripp. Mr. Tripp has been a big part of our learning experience as well as many classes before us.

Gruff on the outside but a softy at heart Mr. Tripp is a familiar face to all.

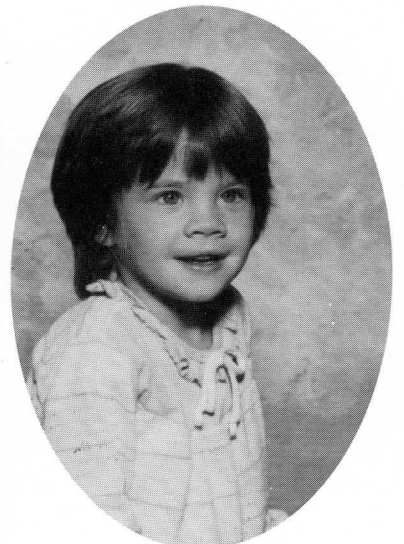

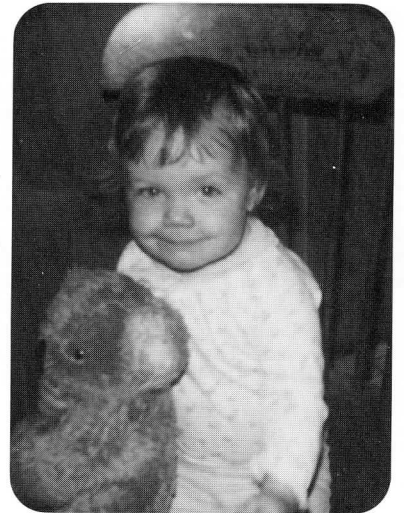

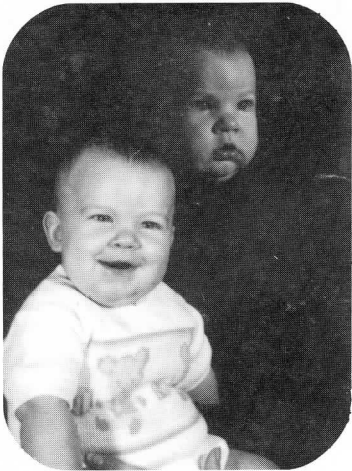

We Thank You for your dedication! Love The Class of '98

Goodbye

The last of last words spoken is Goodbye—
The last dismantled flower in the weed-grown hedge,
The last thin rumor of a feeble bell far ringing,
The last blind rat to spurn the mildewed rye.

A hardening darkness glasses the haunted eye,
Shines into nothing the watcher's burnt-out candle,
Wreathes into scentless nothing the wasting incense,
Faints in the outer silence the hunting-cry.

Love of its muted music breathes no sigh,
Thought in her ivory tower gropes in her spinning,
Toss on in vain the whispering trees of Eden,
Last of all last words spoken is Goodbye.

Am I ready to enter this reality? My past has been just as everybody said life could be; fun, sad, hard, and confusing all at once!
 Thanx to Sue, I was pointed to the direction of self-pride.
 R.C.D. you've been such a strong male role model. Thanx for saving me from all the CHAOS.
 Mom, all I can say is, thanx for being my best friend.
 Nan & Pep a thanx for showing me a part of the world I would not of had a chance to see.
 Dad its been hard without you there for me every day, but you are always in my heart!
 A.E.D., B.T.D., love u!
 Shaun I would never take back what we had.
 To the troop, I couldn't of done it without you.
 Mrs. O & Mrs. Belling we made it through Algebra!
 N.C.W., thanx for helping me stay strong.
 Can't forget my girls; K.M. & J.M. Thanx for all the good times in the bubble. And Nichole, Keep your head up.

Love you all

When I look back at all my memories some make me smile and some bring tears. but you have to take the good with the bad and learn from your mistakes-it builds character. it scares me when i think back on all the things my parents have said, all the advice and all the things i'd understand when i got older because now i do understand and sometimes i catch myself giving that same advice. i'll always remember ball games and a certain tea party with you han, and i'll miss walking with you kim and all the discussions about nothing that were always so important. ap + ms-quite a ride but i'm glad we made it alive. dani-i'm not sure what to say-it's coming to you though, be patient and you'll have it all. i have faith in you. i would like to thank my parents for there unconditional love and the neverending patience and understanding i couldn't have done it without you. gray hares are beautiful. to my baby brothers: keep cool and be careful but most of all stick to your dreams because you never know whats going to happen next. to my class: it's about time! i wondered if we'd ever make it! even though we didn't get to go to the heritage house we still turned out ok! good luck in everything you do. i'll never forget

Everyday we get told to decide just like as if I'm not gonna change my mind.
"Whatcha gonna do with yr.self . . . better make up yr. mind. "What cha gonna do with yr.self . . . yr. running out of time."

This time I've got it all figured out, all I know is that I don't know nothing, and that's fine.
If you never ask any questions then yr. never gonna get no answers. Always be wondering what do you want as we keep getting older faster. Here we go again.

Dislikes: Trees that don't give, the ditch, homework, unhappy people

Likes: Driving around, parties and having a lot of fun

Memories: From what I can recall of these years at Telstar life has been good. I remember camping with Squeally and good old Blaze. Partying with that silly guy they call Rob and getting into trouble most of the time. I should write a lot more but I can't seem to word it good enough so those people I didn't name don't shoot me I sorry. Whatever anyone does in my class I hope they have fun and succeed in what they do. Because I SURE AM PLANNING ON IT!

I would like to say thanks to Miss Belling for helping me find out who I really am. Thanks. Hey Brie, thanks for being a good friend and being there for me. DJ, I will miss being able to pick on you before first period and at lunch. I am going to miss all the teachers that helped me through my classes and to be a better person. I'm also going to miss being able to go to dances with friends and have fun. Brie, hey girl, stay out of trouble and don't do anything that I wouldn't do. Have lots of fun next year at your new school. I hope you have fun, lots and lots of fun, with old friends and with some new ones. I had lots of fun being able to help friends with school work and help them through some other things.

When I moved to Bethel and started school here, I was scared that I wouldn't like it here. I was scared that I wouldn't make any friends. When I made some friends, I felt better about myself and I'm glad that I made some really good friends. I loved going to dances with my friends and having fun with them.

Well, this is it. Goodbye to the class of '98. Thanx to BL, VM, VC, for putting up w/ me for 13 yrs. You guys are the best. Also to my other friends who I an not going to list because I will end up forgetting someone. Thanx for everything. I probably won't miss the school very much but I will miss the teachers that have been there to help me. You know who you are. Of course a couple of very special people who have supported me in school and in life, my mom and my dad. I love you guys. After my parents I have to thank my sister and my brother that I am glad I have. Also my grandparents in NH and my grandmother in ME. I want to make a special thanks to my aunt Shirley who has taught and given me so much I could never thank you enough. Especially all the lessons and horse shows. If I made a list of everything my parents have done for me probably be a million pgs long. Some of my memories would be Boston, Norelands, and the Portland Jetport. My likes are horseback riding, hiking Old Speck with my Dad and my sister. Also I can't forget my GPS, George, Giz, Spunk and all my birds, Petree, Ralphie. I luv u all.

To my friends, Though you are few, A
parting hug and kiss adieu
We've had some laughs these past few years
Amidst the sorrow, sharing tears
Sitting in Kathy's chamber hall
Dressing up, Painting the walls
New and old are silver and gold
Togetherness kept away the cold
Fights we had, and ones to come
Water, Paint, Cake . . . Cleaning up
Persuasive ways to get away
From doing work, So we could play

Shopping trips, during school
Presents for the April fool
Fair on Friday, Homecoming
Dates to make, break and bring
Superbowl and Creation
And the Garrick fascination
(Only just infatuation)
Butt buster picture slides
Secrets we Thought we could confide
More than what is written here
Memories of you, who I hold dear

Likes: Fords, Hondas and snowmobiles

Dislikes: Homework and bullying, careless people also very strict hard to get along with when its report card time. I think I've done more homework in the 12th grade than in my whole eleven years in school.

I have to thank my parents Anna and Leroy Buck for keeping me in school. Instead of putting a mess of names down as to how or what or why we irritated each other and somehow still managed to get a long is a mystery to me.

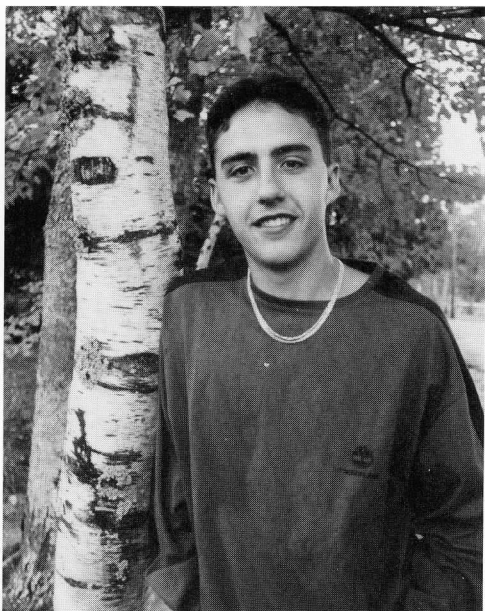

I'm not much for having my picture taken but at a family gathering while I was laughing at someone's cruel joke on my Uncle Pete someone called my name and I looked up still grinning, and there was a bright flash. I wasn't very happy about that, but what could I do?

Kate Riley,

You have grown to be a poised, mature and lovely young woman, and we are very proud of you and all that you have accomplished. Always believe in yourself and in the magic of your dreams.

"For life is the mirror of king and slave;
'Tis just what you are and do;
Then give to the world the best you have,
And the best will come back to you."
Bridges

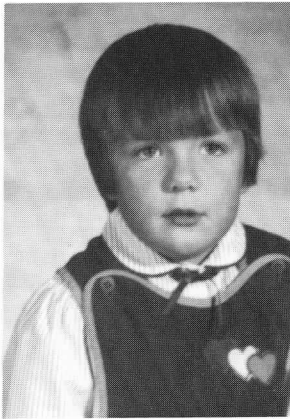

Love you,
Mom and Daddy

Amanda,

There are no words great enough to express the love we have for you! Where have the years gone? Just the other day you were our precious little angel, and now you are a beautiful, wonderful young lady. Don't ever change, you have such a great sense of humor, and such a kind heart. We'll always be here for you whenever you need us and you'll always be our precious angel! Good luck always, we know you'll go far in your career. Congratulations!!!!!!

Love you forever, xo

THE VOICE
There is a voice inside of you
That whispers all day long,
"I feel that this is right for me,
I know that this is wrong."
No teacher, preacher, parent, friend
Or wise man can decide
What's right for you - just listen to
The voice that speaks inside.

Michelle
Michelle, our belle.
It seems like just yesterday we said, "Hello little girl. Ain't she sweet."
But wait, soon she's leaving home, it's all too much.
Something to help you to carry that weight, because we love you:
If you've got trouble or because you are stuck in a yellow submarine with the
walrus,
just shout "help" across the universe and we'll be there eight days a week.
Oh darling, you are flying out on the long and winding road
of the magical mystery tour of life.
Girl, here comes the sun, think for yourself, and act naturally.
It's your ticket to ride, you are as free as a bird.
WE LOVE YOU, MICHELLE!

A mother's love is deep and true
A daughter's love is full of hue
For many years I've watched you
grow
Now a woman, you have a glow
The years went by just to fast
I love to remember you in the past
You've grown so beautiful and pure
Where time went I'm not really sure
So spread your wings it's time to fly
And I'll watch from here and try not
to cry
You're in my heart that's where you'll
be
The future is yours, so take it for me.
Love, Mom

Naomi,
Over the years we have watched you grow
from a beautiful little girl to a beautiful young woman.
Our pride and joy. You have never let us down.
You are fun and pleasant to be with.
Your eyes and smile bring joy every time you flash them.
We know you have had struggles; but they make you strong.
We know your disappointments, and they have molded your heart.
Through it all you have become the most precious gift to us.
We love you dearly and are very proud of you.

ICE STORM '98

One of the worst natural disasters to occur in recent history swept over the Northeastern states on January 5, 1998. A five-day storm of rain and ice broke branches and toppled entire trees, downing power and telephone lines along with them. Emergency shelters opened to alleviate the plight of residents. Some areas were without power for only a few days but others were not as fortunate. The widespread path of devastation and destruction meant that utility companies had to call for help from companies farther south. Despite the tireless efforts by power crews, many areas were without power for two weeks; parts of eastern Canada were crippled for a month.

It was a time of community — a coming together to help each other endure and even overcome the great Ice Storm of '98.

Maine Declared A National Disaster Area

A Storm Beyond Compare

Five days of freezing rain left everything coated in thick ice. Trees and poles snapped like toothpicks. "It sounded and looked like a war zone," said Lori Hanson, yearbook advisor from Messalonskee High School in Oakland, Maine.

According to Central Maine Power over 523,000 residents in the state lost power, affecting over 340,000 households. There were twenty-six hundred utility poles replaced and two to three million feet of line or cable restrung on them. Fifteen of the sixteen counties in Maine were declared disaster areas.

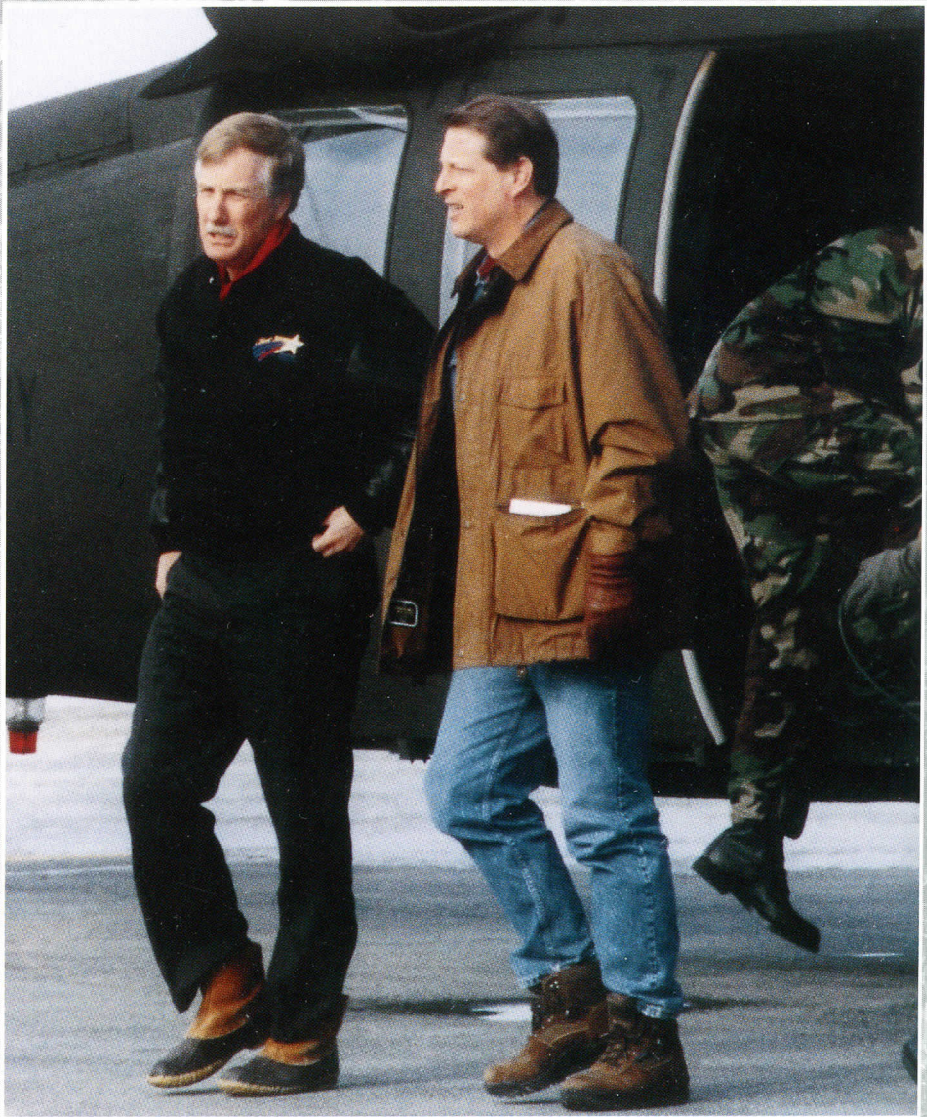

Luckily, many "Mainers" could revert to wood stoves for heat. Generators were in great demand also as people rushed to buy them to make their own power.

One way to get rid of all the ice - eat it!

Vice-President Al Gore arrives in Maine to survey the storm damage with Governor Angus King. They announced that the federal government would extend at least twenty-eight million dollars for disaster relief to individuals and small businesses in Maine.

There was beauty despite the widespread destruction.

In a typical view of the ice storm damage, motorists veer around trees and downed lines on the road. With falling limbs an ever-present threat, many "feared for their lives" and stories of near misses were prevalent. Special thanks go out to the line crews from CMP who worked tirelessly to restore power to the region. With the assistance of the out-of-state crews, CMP was able to accelerate the recovery process.

A scene from Oakland, Maine.

Neighbors helping neighbors was a common sight; clearing debris was a massive job.

From Around New England . . .

Scenes from other New England states show that this storm had a widespread effect on hundreds of thousands of people. The broken trees will be a constant reminder of this destructive storm for years to come. Especially hard-hit were the maple syrup farmers whose livelihood depends on the maple trees. With this years' crop essentially ruined, fears about future production haunt the farmers' thoughts.

Jessica Ethier of Champlain accompanies the National Guard to check on those who would not leave their homes. Here she brings her grandfather much needed supplies.

Brandi Kissel, a student at Northeastern Central School, shows two members of the National Guard the map of Champlain, New York, so that they can do health and welfare checks on the residents there.

Northern New York Devastated

Upstate New York Held Hostage

The devastation from this storm was unimaginable in upstate New York. For five days the mercury hovered just above the freezing mark and the sleet and rain continued to fall until the ice build-up reached incredible proportions.

The ice brought everything to a halt. Students, out on Christmas break, never thought that the break would last until January 20. Folks worked together to help those around them. People arrived from all parts of the country to donate food, blankets, generators and their time.

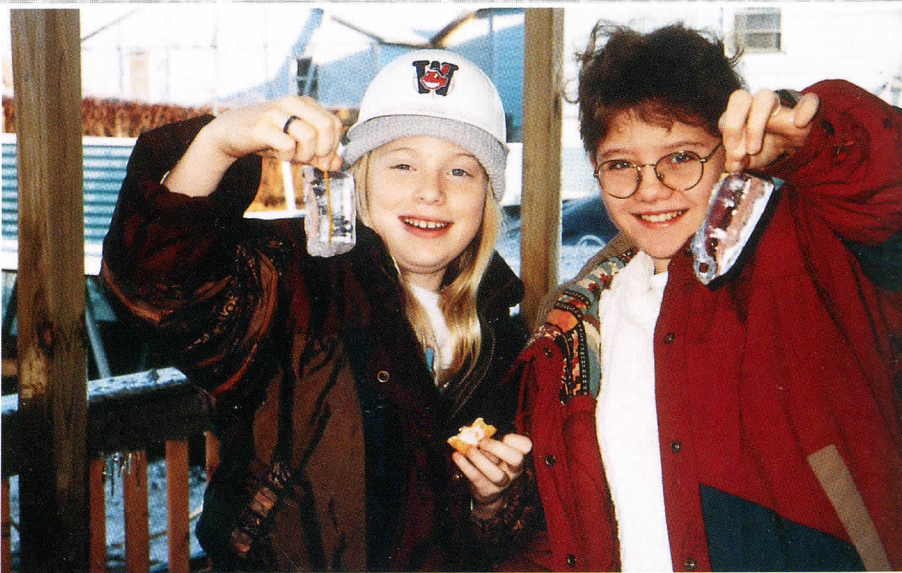

Roads were impassable due to downed trees and lines.

While it was a near miss for this shed, many other structures suffered severe damage. Millions of dollars in damages resulted from the weight of the ice and falling trees and branches - some of which even crashed through dwellings.

Lyme Central School, using power from generators, served as an emergency shelter.

Memories That Will Linger

Vehicles and crews from North Carolina were flown into the Brunswick Naval Air Base as part of the federal disaster relief effort. They joined other crews from the Northeast.

This special ice storm section was generously donated by Jostens Printing and Publishing to schools throughout New England. Thanks to all the people who contributed photos, including Toby Youngs at the Maine National Guard, *The Portland Press Herald*, and Lori Hanson at Potsdam High School.

We are confident that these pages will serve as mementos of the worst natural disaster to hit New England in recent history for the people who overcame it.
